

SPORTS LIGHTING

Our Sportlighting spun concrete poles are made to last. The poles have a round symmetrical cross section and are available in above grade heights from 30' to 70'. They are manufactured with a standard mold finish, but etched decor finishes are available upon request. And they will accept a variety of luminaire mounting styles and crossarm mounting configurations.

Benefits of Spun Concrete Sportlighting Poles

- Low cost direct burial design
- Hollow raceway for internal wiring and components
- Prefabricated holes, inserts and couplings
- Custom designed to meet your loading requirements
- Long maintenance free life span
- Unlike wood – Resistant to insects, fire, and woodpeckers
- Unlike Steel – Resistant to rot, and corrosion
- Variety of sizes and strengths (class)
- Available in above grade heights from 30' to 70'
- Manufactured product with consistent quality and strengths
- Factory made raceways, handholes, wiring apertures, and bolt holes
- Extremely rigid product with low vibration

Hollow raceway for internal wiring
