

CONCRETE POLES

UTILITY STRUCTURES INC.

Get the product you want. Only better.

Utility Structures Inc. is an integral part of the Precast Group of Companies. In business for over 50 years, the group includes Central Precast Inc., M-Con Products Inc., and Utility Structures Inc. (USI). Each company has a specific market classification and manufactures and markets products for that sector.

We at Utility Structures offer specialized services to the electrical industry. Our extensive and diverse line of concrete poles and underground structures allows us to meet the needs of a variety of customers. We manufacture a comprehensive line of concrete poles and related products covering the entire spectrum of outdoor lighting and hydro distribution.

Manufacturing Vibra-spun™ concrete poles for over 50 years.

We engineer every single one of our products to meet exacting performance standards – and they're built to last. We manufacture the only Vibra-spun™ pole in the industry. This trademark process involves introducing

frequency vibration into the spinning process. This results in a denser, more durable pole, with a finish that is unsurpassed in the industry.

Thorough testing allows our concrete poles to be installed with confidence.

The prime focus of Utility Structures has always been to manufacture the highest quality product and offer it to our customers at the most competitive price. To underscore this commitment, we offer a full 10-year limited warranty on our product.

In addition, we're also committed to offering environmentally friendly products through clean, efficient technology and earth-friendly raw materials. The end result is a superior product with exceptional performance and life span.

Given our state-of-the-art manufacturing equipment, highly qualified staff and decades of experience in the field, we've proven our capability to handle any job.

GR

THE GRANDVIEW SERIES

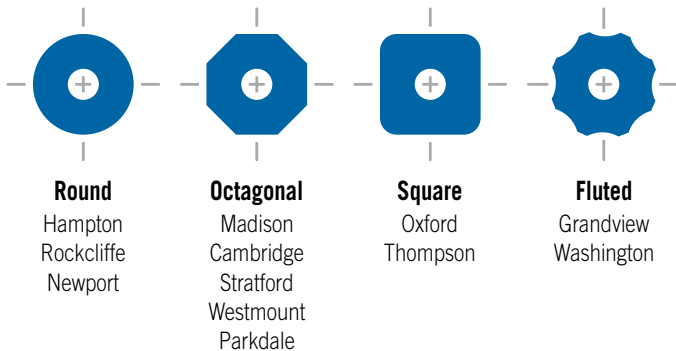

Get the choices you want. Only greater.

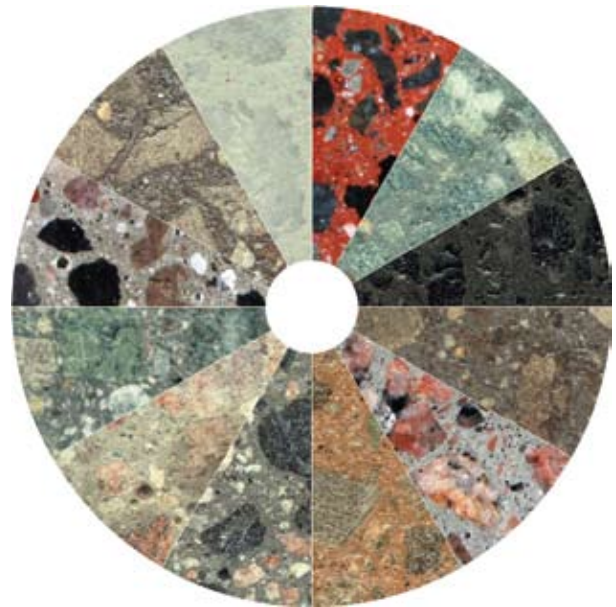

USI offers you the choice of 12 different pole styles, in 4 different cross sections. Each pole style is available in different heights and fixture combinations. With so many choices, you can be rest assured that your project will achieve stunning results.

Cross Sections

Select from 12 attractive colours. And the colour runs right through the whole pole, not just limited to the surface. We also offer three different types of decorative pole finishes: polished, etched, or exposed. The result is a choice of over 36 different colour and finish combinations.

Select from 12 attractive colours. Polished finish shown.

Once you've selected just what you're looking for, relax knowing that our concrete poles offer the flexibility to accommodate all types of fixture/arm mounts. If you are thinking of adding a banner arm, a flower pot holder, or any other custom accessory, you have that option as well.

By offering you a wide variety of pole styles, in over 36 different colour and finish combinations, we give you the ability to make the best choice.

TH

THE THOMPSON SERIES

Get the selection you want. Only easier.

Now that you've made your choices, where to begin. At USI, we want to help make your vision a reality and get the results you want.

Our website is easy to navigate and offers you every bit of information concerning our concrete poles. It is a valuable tool at your finger tips.

Get all the information you want at www.utilitystructures.com.

Browse through our pole styles section to get all the information concerning our poles: physical details, standard features, and installation instructions are listed for each pole. Line drawings and a link to a special gallery section are also available. Download the pole product brochure if you desire.

There's much more information to help with your selection that you won't have to contact us until you want to order.

We make it easy to specify and order our concrete poles, so that you get exactly what you want to complete your project.

And once you've chosen your pole, we make it a snap to order. Everything pertaining to the pole is coded. Specify style, height, class, finish, colour, or any additional options with confidence and ease.

We service North America. Our extensive dealer network allows you to contact an agent closer to your location to give you that face-to-face service you may require. As always, you can contact us directly, and we will be happy to help.

We go the distance to meet the needs of our customers.

We strive to provide you with a comprehensive and usable set of tools to make using our selection and ordering process a rewarding experience.

THE HAMPTON SERIES

Get the results you want. Only superior.

We at USI offer such a wide selection of poles, of exceptional quality and durability, that we want to make it easy to choose the right pole for the right application.

Choose from our wide selection of concrete poles to turn that commercial property into a space that works, or make a residential neighbourhood a good place to call home. Whether you're renovating a main street, or delivering the goods downtown, we have the solution for you.

Our poles can naturally blend into any environment to allow for a relaxing stroll through the park, or stand out to help you find that great parking space. At USI, we want to make your vision a reality and help you achieve the superior results you expect.

Our wide selection of pole styles will compliment applications such as Golf Courses and Residential Neighbourhoods.

THE THOMPSON SERIES

Cross Section: **SQUARE SYMMETRICAL**

The Thompson concrete pole, with its tapered square cross section, adds the right accent of sophistication and appeal to your next project. Ideal for all commercial and residential settings and available in any color or finish. Available in above grade heights from 10' to 40'.

GR

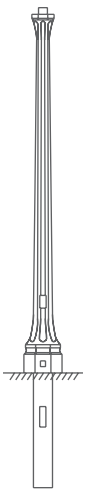

WA

THE GRANVIEW SERIES

Cross Section: **FLUTED SYMMETRICAL**

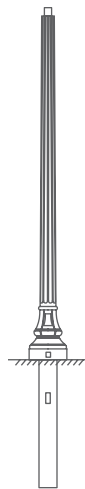

This classic design has an octagonal fluted cross section. The Grandview incorporates old world charm and warmth into every subdivision. It's also a perfect fit for main streets and parks, giving your next project eternal appeal. Available in above grade heights from 10' to 14'.

THE WASHINGTON SERIES

Cross Section: **FLUTED SYMMETRICAL**

One of our more decorative and elegant poles, the Washington has a fluted cross section, and will give your next project that cultured and refined look. Available in above grade heights from 15' to 30'.

SPORTSLIGHTING

SPORTSLIGHTING POLES

Our sportlighting concrete poles are made to last as long as your game does. The poles have a round symmetrical cross section and are available in above grade heights from 10' to 70'. They are manufactured with a standard mold finish, but etched decor finishes are available upon request. And they will accept a variety of luminaire mounting styles and crossarm mounting configurations.

A combination of strength, durability, and versatility make our sportlighting concrete poles great team players.

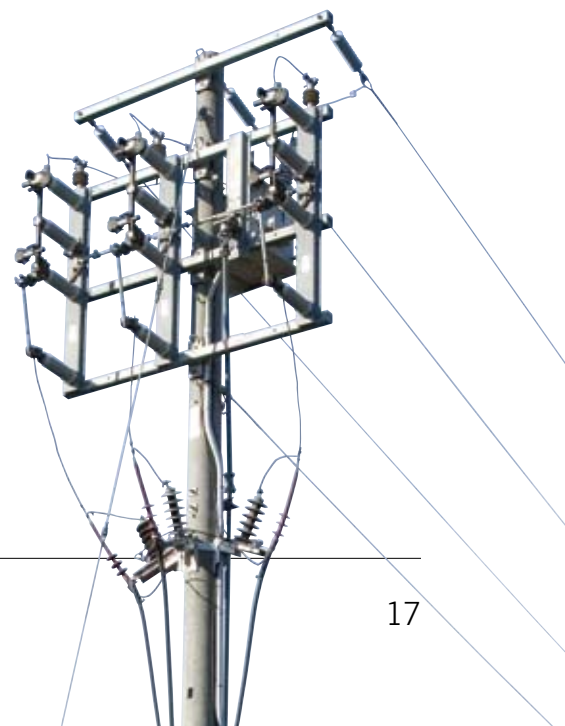

UTILITY

UTILITY POLES

Our Utility concrete poles are manufactured to carry the load. The poles have a round symmetrical cross section and are available in above grade heights from 25' to 70'. They are manufactured with a standard mold finish, but etched decor finishes are available upon request. These poles also have a provision for grounding and hollow raceways for internal wiring and components.

Available in a variety of sizes and classes, and a long maintenance free life span, we give you the power of confidence in selecting our concrete utility poles.

COLOURS & FINISHES

COLOURS

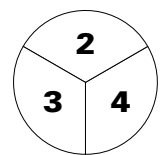

Select from 12 different unique, attractive colours. And the colour is not a painted finish, the entire concrete matrix is a combination of specialty colored aggregates, pigments and cement, which run through the whole pole. We can also create any custom colour you require.

Actual product may vary from colours shown above.

FINISHES

We also offer 4 different types of finishes: mold, polished, etched, or exposed. A mold (standard) finish is typically used with our plain grey poles. Polished gives the surface an ultra smooth finish. Etched gives the surface a semi-rough sandblasted finish. Exposed has large portions of the decorative aggregate showing.

- 1 Mold
- 2 Polished
- 3 Etched
- 4 Exposed
